

3DEXPERIENCE®

3DEXPERIENCE WORKS 2022 - MANUFACTURING

Reseller Manufacturing Day at MetalQuest
Tuesday April 5, 2022, Hebron, Nebraska

DS DASSAULT SYSTEMES | The 3DEXPERIENCE® Company

METALQUEST MANUFACTURING DAY FOR RESELLERS

- ▶ This Manufacturing Day will provide you with the opportunity to learn firsthand how companies like MetalQuest, leverage the 3DEXPERIENCE Works portfolio to go from Engineering to Manufacturing with machine programming and simulation, factory optimization, and LEAN execution on the shop floor. MetalQuest is a custom manufacturing facility specializing in CNC-based machining of highly complex parts. MetalQuest customers are in the oilfield sector and hydraulics industry for agriculture and commercial businesses.
- ▶ Since 1996, MetalQuest has been on the leading edge of automation. Join us for tour of MetalQuest's manufacturing facility to see how they brought multi-tasking to machining and how it's not difficult to automate your operations.
- ▶ In addition, you'll learn why and how you should target your existing SOLIDWORKS install base to win new business in 2022.
- ▶ You will also have an opportunity to see the 3DEXPERIENCE Works portfolio for manufacturing in action with live demonstrations.
- ▶ **Our Hosts**

Scott Harms
President

Scott Volk
Vice President / COO

▶ Who Should Attend?

- ▷ Reseller CEO / COO
- ▷ Reseller VP Sales / Sales Managers
- ▷ Reseller Technical Sales
- ▷ Reseller Marketing and Lead generation team

METALQUEST KEY BUSINESS DRIVERS

- ▶ Reduced timelines to complete increasing amounts of RFQ's that required more detailed engineering efforts upfront.
- ▶ Work cell design had become more complex from tending multiple advanced machining centers.
- ▶ Minimize time spent on the floor for non-value add processes (e.g. rework) by identifying potential design and process related issues prior to manufacturing.
