

Day 1

Module 01 - Getting Started with Cameo Enterprise Architecture

- Overview of new key features in CEA 19.0

Module 02 – UAF Overview

- Introduction to Unified Architecture Framework
- Introduction to Enterprise Architecture

Module 03 – Model Kinds

- This section of the course describes the model elements, relationships, and diagrams that are applicable to each model kind. It also presents the process (tool-user interface) for creating UAF-specific elements, relationships, and diagrams.
- Taxonomy (Tx)
- Structure (Sr)
- Connectivity (Cn)
- Processes (Pr)

Day 2

Module 04 - Model Kinds (continued)

- States (St)
- Interaction Scenarios (Is)
- Constraints (Ct)
- Roadmap (Rm)
- Traceability (Tr)
- Information (If)
- Parametrics (Pm)

Day 3

Module 05 - View Specifications

- This section of the course describes each view specification and describes the elements, relationships, and diagrams for each model kind that are unique or specific to the view specifications.
- Operational
- Resources
- Strategic

- Personnel

Day 4

Module 06 - View Specifications (continued)

- Security
- Projects
- Services
- Standards

Day 5

Module 07 - View Specifications (continued)

- Actual Resources
- Dictionary
- Requirements
- Summary & Overview

Module 08 - Wrap Up

- Course Review

- Feedback Session
- Questions & Answers
